Guest: Ken Bradstreet- representee for Wolverine Power stopped by to introduce himself to the new member of the Township Board. The board raised the question that when Wolverine had their open house they stated the new facility would be used for public service in advent of an emergency. During the time of the Ice storm that facility was not open to the public as they said it would be. Ken said he would look into that matter and report back at the next board meeting.

Ray Scola- Updated the board on the Public Safety Center. He is pushing for the County to put this project request back on the ballot for the county to vote on the bond and not just the commissioners voting on the project.

Brian Skop- Cemetery progress- The building has been taken down, well has been pulled and capped. Brian will get some gravel to fill in and level off area where the building stood. This area will eventually be turned into a sitting space with a bench. The bench is in the planning for a future project.

Brian has begun the process of contacting MDOT to see if there is funding/grant money to help with the erosion of the hill at the base of the cemetery entrance.

The tree damage from the ice storm has been cleared and cleaned up.
